Then you will be back at your albums main page. Each of the submitted photos has a drop-down box with options. The main thing to do is "highlight" one photo. This designates it as the one visible for your album on the main gallery page.

On your main edit page (visible only to you, the owner) you will find lots of options. Most, if not all can be ignored, but you may play around with them if you wish.

At the top right of the page, you will find a link to take you back to the main gallery page.

Be sure and edit the title for you album.
